

Queen Deleted Products List

Last updated: 17th December 2018

Unfortunately we do not have a great deal of influence over which stores stock our products. Our team work hard to put our products on your shelves, but ultimately it's the retailers who decide which products they want in their stores. This means that from time to time a much loved product is deleted from our product line, but please note some of these products are still available to purchase through the [Queen website](#).
