## Ingredients

1 tbsp raspberry jam  
1 tbsp water  
150ml pure cream

## Method - Cake

In a large heavy bottomed saucepan place the apple pieces and add enough tap water to cover. Add the sugar, vanilla bean paste and half lemon and stir until sugar is dissolved. Bring the saucepan to the boil then take off the heat immediately, take out the apple, drain well and set aside to cool.

## Method - Praline

### STEP 1

While the cakes are cooling, line a baking tray with paper and distribute pistachios in one layer close together. Place caster sugar (for praline) and water in a heavy bottom saucepan and heat over low heat until sugar has dissolved. Increase heat to high and bring to the boil. Allow to boil without stirring until mixture turns golden (about 5 minutes). Once golden, pour over pistachios carefully (mixture will be extremely hot) and allow to cool.

### STEP 2

Once cool break into 5-6 shards. Set aside two shards for decoration and place the remaining praline into a blender and pulse until praline has turned into a crumble.

## Method - Assembly

### STEP 1

Beat cream with a mixer until light and fluffy.

### STEP 2

Place the base cake onto a plate and spread the top with raspberry jam. Top with pistachio praline and then a layer of whipped cream (not too much or it will ooze out of the side of the cake when you add the top layer). Gently add the second cake over the filling and pipe the remaining cream onto the top of the cake.

### STEP 3

Decorate with the two pistachio shards, a couple of raspberries and some edible flowers. Serve immediately.
