Method - Cheesecake

Beat cream cheese until softened. Add cream and beat until the mixture is smooth and thick. Add cooled melted chocolate a little at a time, beating well after each addition. Stir through the Bubblegum Flavour for Icing.

STEP 3

Remove 1/4 of the mixture into a small bowl. Remove 6 tablespoons of the reserved mixture into another bowl and add one drop of Blue Food Colour Gel, mixing until colour is even. Add two drops of Red Food Colour Gel to the remaining 3/4 of cheesecake mixture and mix until colour is even.

STEP 4

Pour the pink cheesecake mixture into the pan on top of the chilled cheesecake base. Return to the fridge for 30 minutes to set. Once set, top with the uncoloured cheesecake mixture and smooth. Add dollops of blue cheesecake mixture and gently swirl with a spoon, then use a chopstick or the end of a teaspoon to create a marble pattern. Chill overnight.

STEP 5

To serve, remove from the tin and cut into bars using a warm knife. Keep refrigerated.
