Method - Swiss Meringue Buttercream

STEP 1

Whisk together egg whites and caster sugar in a glass or metal bowl. Set aside.

STEP 2

Fill a saucepan with at least 4cm of water. Bring to a boil, then reduce temperature to a gentle simmer. Place bowl over simmering water and stir constantly until sugar has dissolved, and mixture no longer feels gritty when rubs between your fingers.

STEP 3

Transfer egg whites to stand mixer fitted with a whisk attachment and whip at high speed for 10 minutes until meringue is glossy, stiff, and cool.

STEP 4

With mixer still running, add butter, 1 - 2 tablespoons at a time. Don't worry if your egg whites deflate, or look as though they are split. Keep whisking until smooth and fluffy. Add 3 tsp of Vanilla Bean Paste and Yellow Food Colour and mix until combined.

STEP 5

Transfer buttercream to a piping bag fitted with an open star tip (we used a Wilton 1M piping tip). Pipe buttercream in a swirl, starting in the middle and piping towards the outer edge of the cupcake to create a rosette.
