Method

Add flour and mix until just combined. Place half of the milk in a microwave safe jug and microwave for 30 seconds until warm. Add remaining cold milk to jug so that the milk is lukewarm. on the lowest mixer speed, gradually add milk to egg mixture in a steady stream, mixing until fully combined.

STEP 4

In a separate bowl, beat egg whites until stiff peaks form, then gently fold 1/3 of the egg whites into the milk mixture using a spatula. Mix until just combined then add remaining egg whites 1/3 at a time. Be careful not to over mix, it's okay to have some clumps of egg white remaining. The mixture will be the consistency of thin custard.

STEP 5

Pour mixture into greased tray, gently smooth the surface with a spatula and bake for 45 minutes. During baking it may puff up at the sides - do not remove from oven and allow to bake the full period. Allow to fully cool in the tin, then refrigerate and cut into squares to serve.
