Ingredients

1 cup (250ml) full cream milk
395g can sweetened condensed milk
1 cup (250ml) coconut cream, well mixed
1 tbsp Queen Finest Madagascar Vanilla Extract

Topping

2 cups (500ml) thickened cream
2-3 tsp Queen Vanilla Bean Paste
1 tbsp honey
Fresh fruit, to serve

Method

Add eggs one at a time while mixing on medium speed, beating well between each addition. Add flour and mix gently until just combined. Transfer to prepared tin and bake for 45 to 50 minutes or until cake springs back to the touch and an inserted skewer comes out clean.

STEP 4

Cool cake completely in the tin, then once cool, use a fork to poke holes in the top of the cake.

Method - Soak

STEP 1

Combine milks and vanilla for the soak, then place cake tin on a tray for soaking. Carefully spoon milk mixture over cake, allowing it to slowly absorb into the cake. Chill for 2 hours until absorbed, then when ready to serve, remove cake from tin and place on a serving plate.

Method - Cream

STEP 1

Whip cream until soft peaks form then generously spread over top of cake. Combine honey and vanilla and gently swirl through cream. Serve with fresh fruit if desired.
